Should guinea-pigs survive?

Ulka has an extraordinary number of men and women with brave ideas. So brave that the ideas must die like guinea-pigs for the cause of scientific truth.

The print production people want to laminate billboards. The outdoor squad preaches the values of ecological balance. The fusiliers of the art brigade speculate on the limits of video cassettes and hum the obsolescence of halftones and quartertones as lullaby to their kids. These are mostly married people. The media gnomes, the lesser ones at least, dream of computer programmes and the superior varieties aspire to be investment analysts. The copywriters are compiling a history of octroi taxes and bills of lading to determine the exact location of the ancient cash nexus. The account servicing corps advances the theory that the consumer, befuddled by spurious choices and battered by the soaring prices of movie tickets, will soon become an extinct species.

That leaves a handful of heartless, right thinking creatures at Ulka. With malevolent eyes and ears ringing with the instinct for survival, they send the brave guinea-pigs to the gallows..

The most cunning ones manage to survive to uphold the virtues of reach, penetration, positioning and credibility.

And Ulka lives.

It's a charmed life.

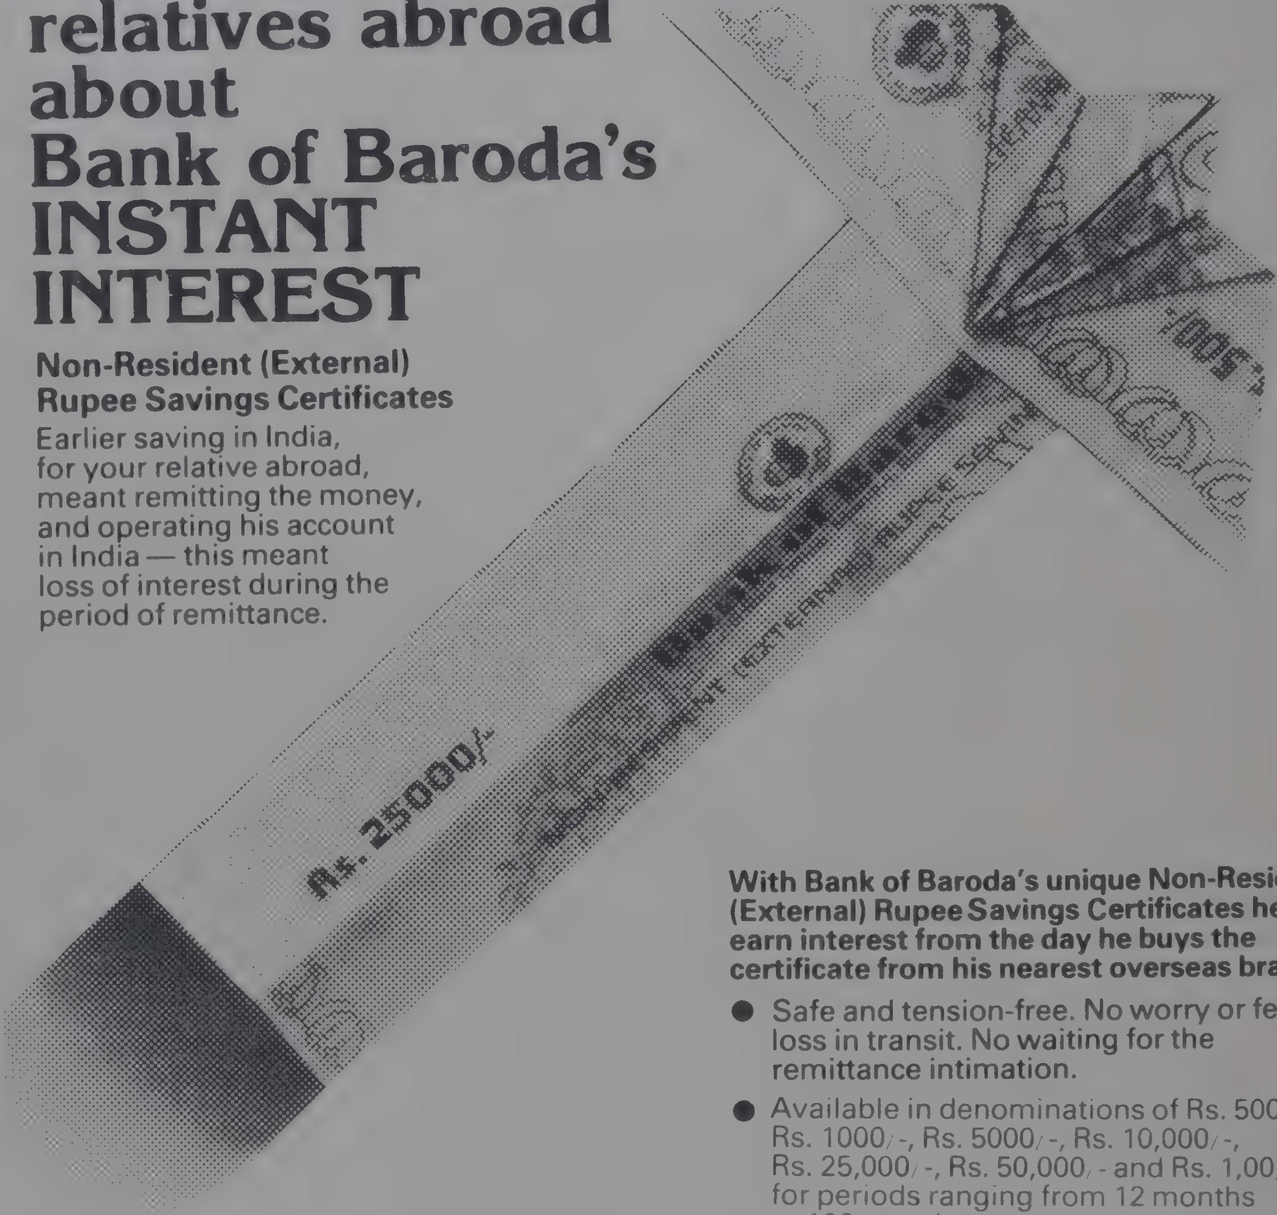
Inform your relatives abroad about Bank of Baroda's INSTANT INTEREST

Non-Resident (External) Rupee Savings Certificates

Earlier saving in India, for your relative abroad, meant remitting the money, and operating his account in India — this meant loss of interest during the period of remittance.



With Bank of Baroda's unique Non-Resident (External) Rupee Savings Certificates he can earn interest from the day he buys the certificate from his nearest overseas branch.

- Safe and tension-free. No worry or fear of loss in transit. No waiting for the remittance intimation.
- Available in denominations of Rs. 500/-, Rs. 1000/-, Rs. 5000/-, Rs. 10,000/-, Rs. 25,000/-, Rs. 50,000/- and Rs. 1,00,000/- for periods ranging from 12 months to 120 months.
- Interest at 13% p.a. compounded quarterly for 60 months and above. 12% interest for shorter durations.
- Interest is free from Indian Income Tax and Wealth Tax, without limits.
- The depositor will be eligible for pre-mature payment and overdraft, against the certificates, at a slight loss of interest.
- Repayable either at the issuing branch or bank's head office, or any two Indian branches of depositor's choice.
- No service charges. These facilities are offered at no extra cost.

Don't say, you don't know Federal Bank.

Especially when Federal Bank's deposits have grown over 20 times in 10 years. It is the youngest Bank in the non-nationalised sector. From 1972 to 1982, the deposits leapt from Rs. 11 crore to Rs. 224 crore. As on July 31, 1983 the deposit is Rs. 236 crore and will touch Rs. 276 crore during the current accounting year.

And more branches too : from the mere 32 to 309 branches, all over India.

NEWSPAPER STATISTICS

THE earliest beginnings of the press in India can be traced to the first newspaper, a weekly double sheet called "Bengal Gazette". It was started by James Augustus Hickey on January 29, 1780 at Serampore near Calcutta.

Many other newspapers followed in quick succession (19 were started before the end of the century). Most of these were in English and were published, edited and read by Englishmen. In spite of their interesting editorial contents which consisted of political and private scandals the newspaper circulation did not exceed 100.

The first Indian owned newspaper the "Bengal Gazette" was published by Gangadhar Bhattacharjee in 1816 (price Re. 1/-). Many independent and well-conducted papers flourished during the administration of Governor-General Lord Hastings, who adopted a liberal policy of self-censorship for the press in 1818. One such magazine was "Calcutta Journal" a bi-weekly with a circulation of 1,000.

However, a revision of policy by John Adam in 1823 necessitated the closure of "Calcutta Journal". Later under liberals like William Bentinck who replaced John Adam in 1828 and Sir Charles Metcalf who succeeded Bentinck, press in India enjoyed greater freedom.

Many other Indian language newspapers were started between 1816-1822. "Shri-Mumbai-na-Samachar" was started as a Gujarati weekly in 1822 by Fardoonji Marzban. It became a daily in 1832 and is the forerunner of the oldest living newspaper today, the "Bombay Samachar".

In Bengal between 1818 and 1855 as many as 99 newspapers and periodicals were started. The average life of each of these publications was 5 years. During the same period only 10 newspapers were published in the north and an insignificant number in the south.

The first railway line in 1853 and the first telegraph line in 1851 contributed to the growth and dissemination of news.

After the mutiny of 1857 restraints on the press were reimposed by Act XV of 1857. Of the 35 publications of 1853, six survived till 1857.

Important Legislation:

1. Act XXV of 1867—regulating printing presses and newspapers.
2. Vernacular Press Act of 1878—to restrain the vernacular press. Repealed four years later.
3. Indian Official Secrets Act was passed in 1889.

AMTE, Murlidhar Devidas, internationally admired social worker in the field of treatment and rehabilitation of persons afflicted by leprosy, popularly known as Baba Amte. *b.* Dec. 1914. LL.B., poet, philosopher and artist. Started the Maharogi Seva Samiti—organisation for the service of leprosy patients—in 1951. Created Anandwan on a 250 acres of land, the first leprosy colony in India for the treatment, training and rehabilitation of leprosy patients and for conducting research in the field. Another centre Ashokwan was started in 1956. In 1968, Sunshine School for blind children was added along with a primary school for children affected by leprosy. The Santhi Niketan, a centre for physically handicapped, was set up in 1972. Somnath Prakalpa, a model farm, was established in 1965. In 1973, in Chandrapur, covering the Adivasi belt of Andhra Pradesh, Maharashtra and Madhya Pradesh, a new welfare organisation came into being called the Lok Biradari Prakalpa. His guiding hand promoted comprehensive health, agriculture and education of the tribals. There was also a 20-bed hospital for free treatment of tribals and a school of non-formal education at Hemalkasa. MONOPOLIES & RESTRICTIVE TRADE PRACTICES COMMISSION, Travancore House, Kasturba Gandhi Marg, New Delhi 110001.

The Monopolies and Restrictive Trade Practices Act, 1969 has been enacted to ensure that the operation of the economic system does not result in the concentration of economic power to the common detriment and to provide for the control of monopolies and the prohibition of monopolistic and restrictive trade practices. The Commission was estasblished in pursuance of the provisions of the Act and it started functioning from August 6, 1970. The Commission inquires into restrictive trade practices on complaints from trade or consumers' associations having membership of twenty-five persons or more, upon references made to it by the Central Government or the State Government or upon applications made to it by the Registar of Restrictive Trade Agreements and also suo-moto upon its own knowledge or information. It inquires into monopolistic trade practices also upon references made to it by the Central Government or upon its own knowledge or information. The Commission further makes inquiries and reports to the Central Government on matters referred to it by the Central Government under various sections dealing with the expansion of existing undertakings, establishment of new ones and matters relating to mergers, amalgamations or takeovers/division of undertaking as well as monopolistic trade practices. The Commission has been vested with the powers of a Civil Court in the enquiries made by it under the Act and it passes final orders in the case of restrictive trade practices. Appeals against the Commission's orders lie with the Supreme Court.

LATE PARTICULARS

INDUSTRIAL POLICY

In July, 1980, the Government of India placed before Parliament a new statement on Industrial Policy. It stressed the need to increase industrial production through optimum utilisation of capacity and expansion of industries as part of a wider strategy to restore the industrial economy of the country to a state of health. Though the main thrust of the policy is to initiate measures to overcome the obstacles to sustained growth in the industrial sector and thus reverse the setback it suffered in the recent past, the revised Industrial Policy draws inspiration from, and broadly adheres to, the basic framework of the earlier Industrial Policy enunciated in 1956.

Salient Features: The broad objective of the new Industrial Policy is to remove the bottlenecks in the way of rapid industrial advance and to provide for an integrated structure which would permit industry to progress on a wide front—from the tiny sector to the large sector—with each segment of the industry interlinked to its next segment. This, it is hoped, would facilitate all-round industrial development in accordance with national priorities and goals.

The policy aims at generation of employment, correction of regional imbalance and promotion of export-oriented and import-substitution industries. It intends to usher in an economic federalism through the coordinated development of small, medium and large enterprises, equitable trend in investments and consumer protection against high prices and poor quality of goods. Accent is laid on the dispersal of industries to backward regions and on achieving an optimum intersectoral relationship.

The foremost task, identified by the Industrial Policy statement, is the revival of the economy by solving the problems of shortages of major industrial inputs like energy, transport and coal. It emphasises the need to extend the benefits of industrialisation to all sections of the population so as to boost the per capita incomes.

The statement reiterates the Government's commitment about the public sector which would continue to occupy a commanding position in the country's economic framework. The increasingly important role played by the public sector in the general revival of the Indian industry has been reemphasised. The private sector is also expected to play its role within the framework of the socio-economic policy of the state and the relevant legislation enacted in this regard. Growth of monopolistic tendencies for concentration of economic power and wealth in a few hands is not to be permitted in consonance with the overall objectives.

The new Industrial Policy makes it clear that the Government would consider sympathetically requests for establishing new units, the entire production would be exported or requests for expansion of existing units exclusively for exports or requests for higher production for exploiting the emerging export potential.

The statement emphasises export promotion. Also, regularisation of actually installed capacity has been permitted in 34 industries. Exports will not count against licensed capacity. Diversification is freely permitted within licensed capacity for specific industries.

Industrial Policy Developments—1983-84: Industrial Policy for 1983-84 continued to further the objectives underlying the Industrial Policy Statement of July 1980. The scheme of re-endorsement of capacities on the basis of past performance in production, introduced in April 1982, was extended to 1983-84. Re-endorsement of capacity will be done on the basis of the highest level of production achieved during the five years ending 1982-83, plus one-third thereof in the case of industries which have not availed of the scheme during 1982-83. In case of industries whose production during 1982-83 was higher than the capacity already endorsed, re-endorsement will be done on the basis of the production during 1982-83, plus one-third thereof. Government has also announced that further re-endorsement of capacity would be allowed during 1984-85 in the case of industries which are able to achieve production higher than the capacity already endorsed during 1983-84. This is intended to enable the industrial undertakings to maximise production without any capacity constraint. For the MRTP and FERA companies, this facility is available for a specific list of industries.

Nine industries which are deemed to be national importance have been exempted from the provisions of sections 21 and 22 of the MRTP Act. This is subject to the condition that not less than 20 per cent of the project cost should be the promoter's contribution and that the debt-equity ratio is not more than 2:1.

In order to promote equitable regional dispersal of industries and to relieve the congestion of thickly populated urban areas, industrially backward areas have been classified into 3 categories for the purpose of investment incentives. Additional incentives have been given to Industry to set up units in 'no industry' districts or in areas falling within the three categories with enhanced subsidies as follows:

Category 'A': This comprises 'no industry' districts plus special regions (118 districts). The Central investment subsidy will be 25 per cent of the investment subject to a ceiling of Rs. 25 lakhs.

Category 'B': This comprises districts currently eligible for Central subsidy minus districts included in Category A (55 districts). Investment subsidy will be 15 per cent subject to a maximum of Rs. 1.5 million.

Category 'C': This comprises the existing 246 concessional finance districts minus those included in Categories A and B (113 districts) **Investment subsidy will be 10 per cent subject to a maximum of Rs. 1.0 million.**

In addition to subsidy, all these three categories will also be eligible for concessional finance.

In this context, some of the other policy measures in force may be noted.

Blocks/taluks/urban agglomerations extension of townships in Categories B and C districts where investments have exceeded Rs. 300 million as on March 31, 1983 will not be eligible for further investment subsidy or concessional finance.

State governments will be assisted to take up infrastructural development in one or more identified growth centres in each 'no industry' district.

MRTP/FERA companies will be permitted to enter non-Appendix 1 industries which are not reserved for small scale sector with export obligation of 50 per cent (for setting up industreis in categories B and C) and 30 per cent (for category C districts).

For providing larger employment opportunities through the establishment of ancillary industries in these areas, certain industrial units will be recognised as nucleus plants which would also be eligible for Central subsidy.

Subject to certain conditions, the exemption limit for licensing of industrial units have been raised from Rs. 30 million to Rs. 50 million.

Further measures were taken during 1983-84 to attract investments in India by non-resident Indians. For the expeditious clearance of all industrial proposals emanating from non-resident Indians, a Special Approval Committee has been constituted to decide and monitor all applications received from non-resident Indians involving industrial licences/registrations/permission, foreign collaborations and import of capital goods. Procedures have been streamlined so that all applications from non-resident Indians would be processed and finalised within a period of 45 days.

In a radical departure from the earlier policy under which the financial institutions exercised only minimum functions in companies which have received assistance from them, the Government has now issued fresh guidelines that would increase the participation of these institutions in the affairs of the aided companies in a variety of ways. The revised guidelines which became effective from March 1, 1984, relate to the norms for conversion of loans into equity, the mechanics of conversion and the appointment and role of nominee directors. While the nominee directors would be appointed in all MRTP companies, their appointment is only on a selective basis in non-MRTP companies. In the case of the latter, the guidelines stipulate a number of conditions. In the case of MRTP companies, the nominee directors would be required to scrutinise such details as share transactions, inter-corporate investments including award of contracts and the expenditure of top management personnel. The guidelines make it clear that the financial institutions should create a special department cell with officials at the level of general managers and deputy general managers whose exclusive and wholetime function would be to represent the institutions on the boards of companies.

FOREIGN DIPLOMATIC REPRESENTATIVE IN INDIA

Consul-General for Syria in Bombay is dead.

UN Assembly Session :

The 39th session of UN General Assembly opens in New York on September 18 in a mood of cynicism among diplomats about the ability of the world organisation to achieve a dramatic breakthrough on any of the outstanding international issues.

Whether it is West Asia, the Iran-Iraq war, Afghanistan, Namibia, or Central America, there seems to be little prospect or hope for a significant advance or movement.

Apart from the fact that the continuing great power tensions inhibit the process of constructive use of the United Nations to settle disputes and crises, the US preoccupation with Presidential elections is also seen as a contributory factor for lack of enthusiasm among diplomats over the ensuing session.

Sino – Indian Talks:

Indian and China began a fifth round of border talks in Beijing on September 17.

Our country has over 1,00,000 exporters.

On the basis of expertise and credibility only 1713 are recognized by the Government of India as 'Export Houses'.

These export houses become eligible for a still higher status of a 'Trading House', when they fulfil a very strict criteria — which includes a high and constantly incremental annual export turnover, possessing all technical facilities necessary for strict quality control and maintaining an excellent relationship with various Government bodies, local suppliers and foreign buyers.

Today, there are only 9 Trading Houses, of which one is Government owned.

We are one of the 8 Private Trading Houses in the country and the only one in Delhi
